A reading assignment will be given for each day (see attached schedule). There will be a quiz given at the first of each class that will be on the reading assignment and on the lecture from the previous class. The quiz will be taken without the use of notes, books, neighbors, etc. These quizzes will be worth 40 points each with a possibility of 3-5 extra credit points per quiz for those who are at class and on time. Those who come late or miss class can make up these quizzes if they can work it out with the facilitator and it is done in a monitored situation HOWEVER those making up a quiz will not be able to get the extra credit on that quiz. Study guide questions will be posted on the website for each reading assignment. The quizzes will come from these study guide questions and from the lecture from the previous class.

Because the schedule only allows for 13 classes there will NOT be any tests. The quizzes will be the tests. Thus, it becomes very important to attend class and take the quizzes.

A paper on famous person from this historical time period as measured against Kohlberg's Scale of Moral Development will be required. This paper will be explained during the first class session. This paper will be worth 100 points.

10 points will be given for attendance and participation in each of the class sessions. This will be worth up to 130 points. These points are for those who are at class on time and who remain for the entire class period. Partial credit will NOT be given to those who come late or leave early. Extra credit may be offered for extra work during the course. However extra credit will not be given on an individual basis. If it is offered to one it will be offered to all.

Grading: 12 quizzes @ 40 pts each = 480 pts.
Kohlberg paper @ 100 pts = 100 pts.

TOTAL = 710 pts.
